

Master your
FAST/SPS
machine

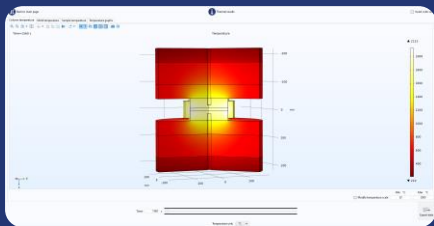

The Innovative SOFTWARE for FAST/SPS Machines

KEY BENEFITS

- ① Thermal gradients control
- ① Exploit the full potential of your machine
- ① Design the perfect tools
- ① Accelerated Up-scaling
- ① Finite Element Modelling
- ① Ready to use, simple to install

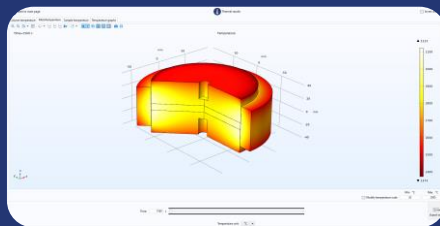

ENGEMINI was developed by our team of **Ph.D experts**, specialised in the **FAST/SPS processing** of simple and complex shapes

DECISION MAKING TOOL

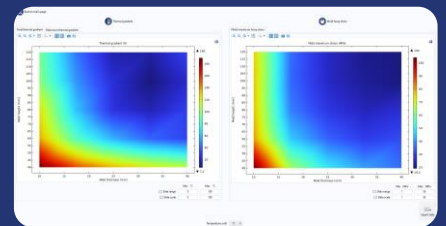

Digital Optimization
of test samples

OUT OF THE BOX

Virtual mold design
Results Prediction

Boost Manufacturing
Productivity

A virtual copy of your FAST/SPS machine
